Why do agencies need Synergist?

Agencies operate in a fast-paced environment where managing project efficiency, client profitability, and capacity management is critical. Many agencies struggle with disconnected tools for quoting, task management, resourcing, time tracking, and reporting. Synergist solves these challenges by bringing everything together in one powerful system.

Synergist helps agencies...

- ✓ **Accurately forecast:** know exactly what's coming in, where you have capacity, where you need resource, and monitor progress against targets.
- ✓ **Drive profitability:** build realistic quotes, track time and costs in real time to prevent overservicing, and understand which clients, projects, and services are profitable.
- ✓ **Optimise utilisation:** see where people are spending their billable and non-billable time, and streamline your workflows and communication to enhance productivity.
- ✓ **Strategic insights:** get the specific data and create the exact reports you need to identify trends and make informed decisions about your new business, client, service and people strategies.
- ✓ **Streamline financial management:** boost efficiency and control over invoicing, purchasing, expenses, and revenue recognition with streamlined workflows and seamless integration with your accounting software.

Why is Synergist the best choice for agencies?

Synergist offers hundreds of customisable features that can be tailored to your agency's specific requirements. Whether you're 10 or 500 people, design or digital, Synergist can scale and shape to work the way you need.

Our team of highly experienced agency experts are by your side to help set up Synergist and provide ongoing support to elevate your agency's performance.

“ Synergist is the best investment we have made as an agency, and I would absolutely recommend it to any marketing services business that wants to understand exactly what is making them money, and where all the time is being spent. ”

David van Schaick
CMO, The Marketing Practice

Onboarding Synergist

Our implementation experts will help design, configure, integrate, train, and launch Synergist without a hitch. They've helped hundreds of agencies optimise their processes and reporting. Some have spent years working in senior roles in agencies, while others have spent years helping agencies improve performance. So they know how to make an agency really work.

Typically, the whole process takes around 8-12 weeks, depending on complexity. Once your requirements are understood, they'll create an onboarding plan with timings and costs.

Subscription pricing

Your monthly subscription is made up of a core hosting fee plus the number of full and timesheet users you need. As the number of users increases, the cost per user decreases.

- Full users have access to all features: £33-£54 user/month
- Timesheet users can enter time and expenses and view job info: £13-£21 user/month
